Ultra-Spill Decks®

Low profile, modular spill decks allow you to design and create a containment system that meets your specific needs

Ultra-Spill Decks are available in 1, 2, and 4-drum modules. Modules are easily connected together with bulkhead fittings to allow a virtually unlimited number of customized configurations.

- + Polyethylene construction meets a wide range of chemical compatibility needs.
- + Low profile, 5 3/4" height offers safe and convenient loading/unloading of drums.
- + Applications include hazardous waste collection, storage of virgin chemicals, drum dispensing, and battery storage.
- + Optional Loading Ramps provide added drum handling safety and convenience.
- + All Ultra-Spill Decks offer slip-resistant grating to reduce OSHA slip hazards.
- + Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175.

Shown above — 12-Drum Spill Deck System using the following components: (3) P4 Spill Decks — Part# 1072, (4) Bulkhead Fittings - Part# 1073, (4) T-Strips - Part# 1131 and (1) Ramp - Part# 1089. (Rack, drums and buckets are application props and are not included.)

The Bulkhead Fittings not only "lock" connected modules together, but allow spilled liquid to flow from one module to the next increasing containment capacity while maintaining a low profile.

Ultra-Spill Deck Containment Systems meet SPCC, EPA, and Uniform Fire Code Spill Containment Regulations when assembled in configurations of six (6) drums or more.
