

Multilube EP Greases

Description:

Norchem EP greases are mineral oil-based with extreme pressure additives. These greases provide good lubrication in general applications.

Norchem EP greases has a customized formulation that provides superior anti-friction and film protection under heavy load conditions.

Benefits:

- Superior lubrication under severe conditions.
- Stays in place in extreme environments to protect components.
- Suitable for low and high temperature applications.
- Protection against rust and corrosion.
- Extend bearing life in wet conditions.

Application:

Highly recommended for lubrication of heavy and light load machineries. Use where high or shock loads are present or where vibration is a problem. Other usage includes anti-friction and plain bearings, pumps, motors, joints, rollers, etc. Suitable for a wide range of industrial and marine applications.

Operating Temperature Range: - 20°C ~ + 120°C

Typical Properties:

Item	Typical Results			Test Method
Appearance	Smooth ointment, Pale Yellow to Brown			Visual
NLGI Grade	3	2	1	
Worked Penetration	220 - 250	265 – 295	310 - 340	GB/T269
Dropping Point °C Min	170	180	180	GB/T3498
Type of Thickener	Li-12-Hydroxy Stearate	Li-12- Hydroxy Stearate	Li-12- Hydroxy Stearate	-
Oil Separation 100 °C, 24h % Loss	1.8	2.1	3.0	SH/T0324

Package:

Supplied in 16kg pail
