

Hand Sanitizer

DESCRIPTION

Norchem Hand Sanitizer is a 70% alcohol-based disinfectant and sanitizer for personnel working in clean rooms, hospitals, transport, food and service industries.

Product being an alcohol-based cleaner will eliminate bacteria by causing disruptions to the cell membrane plus inactive certain enveloped viruses.

ADVANTAGES

- Effective against both gram negative and gram positive bacteria.
- Fast drying – allows for relatively uninterrupted production
- Non-toxic; safe to use on hands and skin
- Kills 99.99% bacteria

APPLICATION

- 1) Use neat and apply a small amount of the sanitizer on the hands and massage thoroughly. Product will vaporize within 15 – 20 seconds leaving behind bacterial free hands.
- 2) For hard and soft surfaces like fabric, spray a certain amount onto the surfaces and wipe off with a clean cloth or paper wiper or leave to air dry.

NOTE: Care should be taken when spraying on polished/varnished surfaces as the alcohol can cause blurring to such surfaces.

PROPERTIES

Appearance : Clear Liquid
Alcohol : 70%
Odour : Mild Solvent
pH : 6 +/- 0.5

TEST REPORT: BS EN 1040:2005
