

SD 568 SOLVENT DEGREASER

GENERAL DESCRIPTION

Norchem SD 568 is a ready to use general purpose oil and grease remover specially designed as an effective low cost water emulsifiable degreaser. It has a neutral pH value and is safe on all common paints.

ADVANTAGES

- Ready-to-use, no mixing required
- Contains good emulsifiers, penetrating and dispersing agents
- Rapid removal of grease, oil and grime
- Will not harm machine parts
- No obnoxious fumes
- Economical, Competitively priced

WHERE TO USE

Norchem SD 568 covers a wide variety of degreasing problems. Use SD 568 to clean machinery and mining equipment. On board vessels or oil rigs for the cleaning of engine rooms, derricks, belts, pumps, runaways, pits and deck areas. In automotive workshops for the cleaning of greasy floors, automotive parts, engine blocks and chassis.

HOW TO USE

Use at full strength or dilute with 1 or 2 parts of fresh or seawater. Apply by spraying, brushing, mopping or by dipping. Allow 15 minutes for penetration and pressure rinse with fresh or seawater or wipe off with a damp cloth. Steam may also be used.

PRODUCT SPECIFICATION

Appearance	: Brown Liquid
Flash Point	: 65°C (149°F)
Odour	: Paraffin like
Stability	: Indefinite when stored normally.
Density	: 0.85 ± 0.03
