

XCELL 84 ALKALINE DEGREASER

APPLICATION

Norchem Xcell 84 is a heavy duty biodegradable cleaner and degreaser suitable for a variety of applications such as:

1. Degreasing of animal and vegetable oil tanks
2. Cleaning of oil, grease, carbon from all hard surfaces
3. Steam/high pressure cleaning and as an excellent rigwash detergent

DIRECTIONS

Tank Cleaning

Use methods such as direct injection, recirculation, rock 'N' roll and pressure spray washing can be applied. Dosage should be 5 to 10 litres per ton of wash water. Operating temperature should be maintained between 60 to 80°C.

General Cleaning/Rigwash

Use approx. 5 to 10% with water. Apply by any of the conventional cleaning methods suitable for the application.

Steam/High Pressure Cleaning

Charge approx. a 20% concentration of Xcell 84 into the detergent tank.

PRECAUTIONS

Strong alkaline product. Avoid contact. Gloves and goggles are to be worn. In case of contact, flush affected area with copious amount of water.

PACKAGE

Supplied in 25 or 200 litres container.
