

Corrosive Substance Storage Cabinet

1. Constructed of 8mm polypropylene(PP) panels, offering superior protection against harsh acid, alkali and corrosion.
2. Adjustable and reversible shelves meet diverse choices of users.
3. Formed with bent plates to make it stable and prevent from being out of shape.
4. Divided into two parts to store different chemicals, making good use of storage space.
5. Door hasp accepts padlock to achieve double locks for security against unauthorized use.
